

Technical Data

Accuracy	+/-0.2°C (34-45°C, put it in the operating environment for 30 minutes before use)		
Alarm type	Flashing + bleeping "DIDIDI"	Input	DC 5V 1A
Measuring distance	5cm~10cm	Product power	3W
LED display	Number	Liquid type	Hand sanitizer
Interface	USB Type-C Port	Advantages	
Bottle Capacity	1000mL		
Mounting Type	Wall-hanging, Tripod-fixed	<ul style="list-style-type: none"> Automatic induction no-clean disinfection soap dispenser, more convenient to use 	
Working Temperature	8.10°C-40°C (15°C-35°C Recommended)	<ul style="list-style-type: none"> Large digital display, high-definition display 	
Measuring range	0-50°C	<ul style="list-style-type: none"> High-precision sensor, stable and reliable performance 	
Standby time	5s for non-working, dynamic loop with white dot	<ul style="list-style-type: none"> With intelligent point saving and automatic wake-up function 	
Dimension	119x133x280mm	<ul style="list-style-type: none"> Strong adaptability to environment temperature 	
Net weight	702g	<ul style="list-style-type: none"> Large-capacity soap liquid, longer life cycle 	

Non-contact Automatic Temperature Measurement
